

SLOPESPAN FREESTYLE

SLOPEspan Freestyle

Approach, takeoff, landing and run-out systems for ski and snowboard progression.

SLOPEspan · All-Season Ski & Freestyle Systems

Global products. Global projects. Practical supply solutions.

TECHNICAL OVERVIEW

Controlled project-planning reference

This sheet summarises the current Apollo website specification pathway. Final production data, drawings, installation documents and site requirements are confirmed against the actual project.

System zones	Approach · takeoff · landing · run-out.
Training pathway	Freestyle ski and snowboard.
Surface	Synthetic all-season training system.
Geometry	Project-specific speed, takeoff, landing profile and run-out.
Format	Standalone or integrated training zone.

PROJECT FIT

Complete movement path Plan all four zones as one system.	Progressive setup Shape the training around athlete level and coaching outcomes.
All-season sessions Create repeatable sessions outside natural-snow season.	Expandable Integrates with dry-ski, mogul and performance terrain.

COMMON APPLICATIONS

Freestyle academies · Ski resorts · Snowboard programmes · Sports institutes · Advanced training centres

PROJECT-SPECIFIC REQUIREMENTS

Final jump geometry, approach speed, landing profile, structural works, run-out, side safety systems and approvals require specialist project design.
