

RESIDENTIAL + HOSPITALITY MODULAR POOL

AUREMONT MID-SIZE

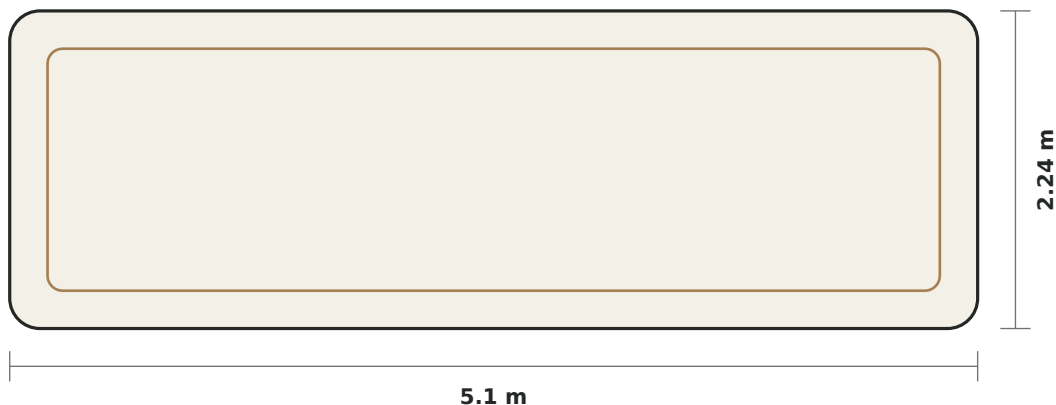

The balanced Auremont standard pool for general residential, lifestyle and hospitality use.

STANDARD EXTERNAL SIZE

5.1 x 2.24 x 1.5 m

FIXED AUREMONT FORMAT

PLAN VIEW - standard external envelope

MODEL POSITION

Balanced general-use standard format with more swimming area than the compact models.

BEST FOR

Lifestyle homes • Holiday properties • Villas • Boutique hotels
Resorts • Residential developments

RANGE RULE: Auremont does not offer custom external length, width or depth.

PROJECT CONFIGURATION

Configure the project around the standard shell.

The external pool size remains fixed. Final CAD confirms the configured unit, internal geometry, equipment, service zones, compatible options and destination interfaces before production.

POOL SYSTEM

- FRP fibreglass interior
- Configured support structure
- PU insulation pathway
- Integrated equipment/service zone

EQUIPMENT

- Pump + filtration
- Heating pathway
- Underwater lighting
- Controls and treatment by project

COMPATIBLE OPTIONS

- Viewing window pathway
- WPC / exterior integration
- Manual or powered cover pathway

SITE + DELIVERY

- Foundation/support by local team
- Truck + crane access
- Final dry weight + lift data

SUPPLY-ONLY PROJECT BOUNDARY

AUREMONT supplies the configured pool package. Site preparation, foundations/support, crane lifting, utility connections, barriers, local installation, regulated trade work, approvals and commissioning remain with the purchaser's local project team unless expressly included in the written quotation.

NEXT STEP

Confirm the standard model, destination, access and required options.
