WHOLESALE & PROJECT SUPPLY

A brand of Apollo NZ Global

SYSTEM OVERVIEW

A COMPLETE TENNIS-COURT PACKAGE.

Select the post and net format, then coordinate the full tennis-court package around posts, nets, accessories and supporting infrastructure.

01 TENNIS POSTS

Fixed, socket and movable aluminium post systems.

02 TENNIS NETS

Training, ordinary and competition net options.

03 COURT ACCESSORIES

Windscreens, divider nets, supports and maintenance tools.

04 SURFACING

High-performance court surfaces for lasting play.

05 FENCING

Perimeter enclosure, access and ball containment.

06 LIGHTING

Court lighting aligned to venue and use.

07 SEATING

Courtside player, team and officials seating.

08 SPECTATOR SEATING

Grandstand options where spectator capacity is required.

TENNIS POST SYSTEMS

FIVE ALUMINIUM POST CONFIGURATIONS.

The source range includes fixed, socket and movable aluminium tennis-post options for different court applications.

SQUARE COMMERCIAL

Fixed commercial profile for permanent court installations.

SOCKET-MOUNT

Socket installation for flexible court configurations.

ROUND ALUMINIUM

Round-profile permanent post system.

MOVABLE ALUMINIUM

Floor-standing movable base for versatile use.

TENNIS NET SYSTEMS

TRAINING TO COMPETITION NETS.

A comprehensive range of tennis nets covering ordinary, training and competition formats.

TN-1018 ORDINARY TENNIS NET

Durable general-purpose net for everyday play and multi-court installations.

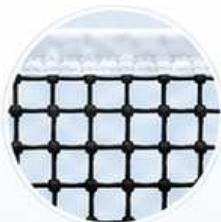

TN-2009 COMPETITION TENNIS NET

Premium tournament-standard net for competition play.

ORDINARY NET

General tennis-court use with durable construction.

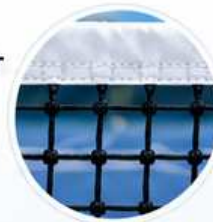

TRAINING NET

Designed for training and practice environments.

COMPETITION NET

Tensioned and stitched for competition-focused performance.

ADDITIONAL NET VARIANTS

Source catalogue includes further tennis-net specifications.

COURT ACCESSORIES

COURT SUPPORT & OPERATIONS EQUIPMENT.

The range includes support equipment for the operation and maintenance of tennis courts.

WINDSCREEN & DIVIDER NETS.

Durable windscreens and divider nets for improved play environments.

COURT OPERATIONS EQUIPMENT.

Essential equipment for teaching, training and everyday court operations.

WINDSCREENS

Standard and plastic-coated windscreen nets.

DIVIDER NET

Soft divider net for court separation.

NET SUPPORT

Single-support component for the tennis net.

COURT CARE

Aluminium water squeegee and water roller.

OPERATIONS

Ball carts, teaching cart, linesman chair and scoreboard.

COURT INFRASTRUCTURE

SURFACING + FENCING + LIGHTING.

A complete, coordinated solution for the full supporting infrastructure around your tennis courts — designed for performance, safety and long-term use.

SURFACING

Court surface selected around substrate, playing characteristics and project requirements.

FENCING

Court enclosure, access and containment aligned with the court footprint.

LIGHTING

Court-lighting layout developed to suit intended use, local requirements and site interfaces.

VENUE CONFIGURATIONS

CLUB, EDUCATION & TOURNAMENT ENVIRONMENTS.

A versatile tennis-court system family that adapts to the needs of clubs, schools and tournament venues, delivering consistent performance, appearance and long-term value.

CLUB / COMMUNITY

Durable, low-maintenance systems for public and private clubs with flexible configuration options and practical accessories.

EDUCATION / TRAINING

Safe and reliable solutions for schools and training centres, with repeatable court systems and teaching-friendly layouts.

TOURNAMENT / EVENT

High-performance systems for competition venues with professional specification posts, nets and courtside equipment.

TENNIS COURT SYSTEMS

FROM COURT BRIEF TO COORDINATED SUPPLY.

LUTHVAR tennis court systems coordinate the core equipment and supporting infrastructure required for club, education, training and commercial tennis projects.
