RANGE OVERVIEW

SEVEN MODULAR FENCE SYSTEMS.

The source catalogue provides multiple fastening, framing and panel strategies for different sports-facility and court

01

UHS-1007

Precision-stamped steel-fastener assembly mesh fence

02

UHS-1008

Precision-cast alloy cross-fastener assembly mesh fence

03

UHS-0203

Corrugated-panel assembly mesh fence

04

UHS-1006A

Steel-frame built-in assembled fence

05

UHS-1010

Double-clip assembled fence

06

UHS-1103

Aluminium-alloy sliding-rail assembled fence

07

UHS-1101

Aluminium-alloy frame built-in assembled fence

08

PROJECT MATCH

Final system selected around venue, layout and project requirements

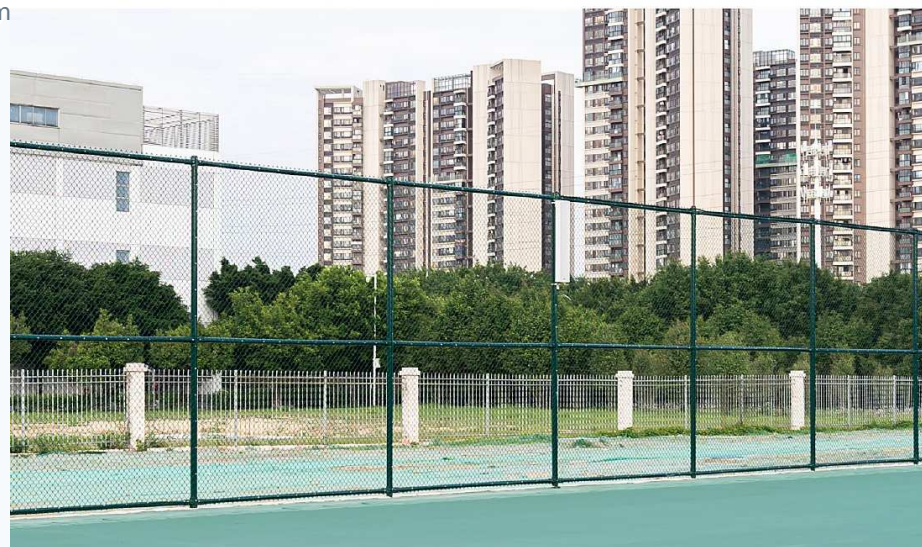

FASTENER SYSTEMS

STAMPED & CROSS-FASTENER ASSEMBLIES.

UHS-1007

Precision-stamped steel-fastener assembly mesh fence.

UHS-1008

Precision-cast alloy cross-fastener assembly mesh fence.

PANEL & FRAME SYSTEMS

CORRUGATED PANEL + BUILT-IN FRAME.

sport

All-weather hot-dip
galvanized steel

all-round rust
resistance

Customized

PRODUCT FEATURES

- | | |
|-------------------------------|--|
| HOTDIPGALVANEDST FIELD | ▶ Hot-dip galvanized steel structural sections with all-weather and all-round rust resistance |
| ZERO DEAD ENDS | ▶ Reinforced hot-dip galvanized protective layer
Full-coverage inner/outer wall treatment to eliminate air exposure |
| ANTI-RUST PROCESS | ▶ + Super weather-resistant polyester powder spraying
Double protection, all-weather, all-round rust resistance |
| EASY INSTALLATION | ▶ Easy installation, short lead time, modular freedom, sleek aesthetics |

UHS-0203

Corrugated-panel assembly mesh fence.

UHS-1006A

Steel-frame built-in assembled fence.

DOUBLE-CLIP SYSTEM

UHS-1010 ASSEMBLED FENCE.

All-weather hot-dip
galvanized steel

all-round rust
resistance

Customized
color

PRODUCT FEATURES

- INTEGRATED DESIGN** ▶ Precision stamped steel clamps or cast aluminum alloy clamps; Quick-install crossbar design for on-site modular assembly/disassembly.
- ZERO DEAD ENDS** ▶ Reinforced insulated hot-dipped galvanized steel
Full-coverage inner/outer wall treatment to eliminate air exposure
- ANTI-RUST PROCESS** ▶ Dual-Layer Super Weather-Resistant Polyester Powder Coating for All-Weather Rustproof Protection
- FLEXIBLE MATCHING** ▶ Lower Section: Fixed wire mesh panels.
Upper Section: Compatible with various mesh

FINE STAMPING

ZERO DEAD ENDS

ANTI-RUST PROCESS

EASY INSTALLATION

SYSTEM POSITIONING

The source catalogue positions UHS-1010 as a double-clip assembled sports wire-mesh fence. Final panel dimensions, post spacing, finish and installation interfaces should be confirmed for each project.

ALUMINIUM SYSTEMS

SLIDING-RAIL & BUILT-IN FRAME OPTIONS.

All-weather hot-dip galvanized steel

all-round rust resistance

Customized color

PRODUCT FEATURES

- INNOVATIVE DESIGN** ▶ Breakthrough innovative design in the industry won the national utility model patent
- FRAME ASSEMBLY** ▶ All aluminum alloy structure, frame assembly convenient on-site disassembly and assembly design, no need to pull net on-site
- ZERO MAINTAINANCE** ▶ Innovative concealed fence installation Solve potential safety hazards around the clock "zero maintenance"
- ANTI-RUST PROCESS** ▶ Super weather-resistant pure polyester powder coating treatment process all-weather and all-round rust resistance
- EASY INSTALLATION** ▶ Easy installation, short lead time, modular freedom, sleek aesthetics

UHS-1103

Aluminium-alloy sliding-rail assembled fence.

ium fr

All-weather hot-dip galvanized steel

all-round rust resistance

Customized color

PRODUCT FEATURES

- INNOVATIVE DESIGN** ▶ Breakthrough innovative design in the industry won the national scientific and technological invention patent
- ALL ALUMINUM ALLOY** ▶ All-aluminum alloy structure, frame assembly site convenient disassembly and assembly design No need to pull the net on site
- ANTI-RUST PROCESS** ▶ Dual-Layer Super Weather-Resistant Polyester Powder Coating for All-Weather Rustproof Protection
- ZERO MAINTENANCE** ▶ Innovative hidden fence installation solves potential safety hazards and "zero maintenance" all-weather

UHS-1101

Aluminium-alloy frame built-in assembled fence.

PROJECT SELECTION

MATCH THE FENCE TO THE VENUE.

ure is

FASTENER ASSEMBLY

UHS-1007 / UHS-1008

Alternative fastening strategies

PANEL SYSTEM

UHS-0203

Corrugated-panel construction

BUILT-IN STEEL FRAME

UHS-1006A

Integrated steel-frame system

DOUBLE-CLIP

UHS-1010

Clip-based modular assembly

ALUMINIUM FRAME

UHS-1103 / UHS-1101

Sliding-rail or built-in aluminium

SPORTS WIRE MESH FENCING

FROM COURT BOUNDARY TO COORDINATED ENCLOSURE.

LUTHVAR fencing systems provide multiple steel and aluminium enclosure architectures for sports courts, facilities and project-specific applications.
