

AUREMONT vs ORDRAN

Two separate pool ranges. Choose from the project requirement, not from a generic pool category.

AUREMONT

MODULAR POOL SYSTEMS

Choose the standard pool first. Configure the project around it.

SIZE STRATEGY	Four fixed external standard sizes
SIZES	4.0 x 2.0 x 1.4 4.3 x 2.25 x 1.4 5.1 x 2.24 x 1.5 9.1 x 2.2 x 2.0 m
CUSTOM EXT. GEOMETRY	No - choose the closest standard shell
CONFIGURE	Installation, equipment, covers, finishes and compatible options
STRONG FIT	Homes, villas, hospitality and repeat multi-pool programmes
INFINITY / OVERFLOW	Not a core AUREMONT pathway

ORDRAN

ARCHITECTURAL POOL SYSTEMS

Start with the project. Configure the pool geometry around it.

SIZE STRATEGY	Made-to-measure by project
CURRENT PRODUCTS	CUSTOM INFINITY PLUNGE LINEAR
PROJECT FAMILIES	RESORT WELLNESS LOUNGE MODULAR WINDOWS
CUSTOM EXT. GEOMETRY	Yes - within structural, production and freight limits
STRONG FIT	Feature pools, resorts, bespoke homes, infinity/window and difficult-access projects
INFINITY / WINDOWS	Dedicated architectural pathways

FAST ROUTING RULE

If one of the four standard sizes fits -> AUREMONT. If the pool needs custom geometry, infinity / overflow architecture or a dedicated viewing-window solution -> ORDRAN.
